KO MANUFACTURING INC.

DYNA BRITE™

PRODUCT NUMBER 208

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability.

When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution. We invite you to come and be a part of a winning solution.

PRODUCT DESCRIPTION:

Dyna Brite is a fast-acting cleaner designed to chemically brighten aluminum and other soft metals. It penetrates quickly to remove oxide and carbon from aluminum bodies and parts and rinses easily leaving parts looking bright.

PRODUCT INSTRUCTIONS:

For general aluminum brightening, dilute 1 part Dyna Brite with 30 parts cool water (do not use hot water). Apply to surface at low pressure (to decrease airborne atomization) starting from the bottom and working upwards. Let chemical penetrate soils for 1-2 minutes. Rinse with fresh water. Repeat if necessary.

KEY POINTS:

- Biodegradable.
- Excellent wetting ability.
- Fast acting cleaner and aluminum brightener.
- Highly efficient.
- Quickly removes oxide and carbon.

Attention: Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.
